

Sravan Kumar Koyyada

Computer Science and Engineering, Rajiv Gandhi University of Knowledge Technologies, Basar

+91 7680912116 — sravankoyyada28@gmail.com — Github — LinkedIn

OBJECTIVE

Passionate Computer Science Engineering graduate with hands-on experience in software development and the SDLC methodologies. Skilled in AI and ML technologies, Java, Python, SQL, and modern frameworks. Seeking to contribute in a technical role by applying strong technical expertise and problem-solving abilities to deliver scalable software solutions.

EDUCATION

• Bachelor of Technology in Computer Science and Engineering <i>Rajiv Gandhi University of Knowledge Technologies-Basar</i>	2021 - 2025 CGPA: 7.9
• Pre-University Course <i>Rajiv Gandhi University of Knowledge Technologies-Basar</i>	2019 - 2021 CGPA: 7.6
• S.S.C <i>ZPHS Gatlakaniparthu</i>	2016 - 2019 CGPA: 9.7

EXPERIENCE

Project Associate 1 - CSIR-National Aerospace Laboratories, Bangalore 10/2025 - Present

- Trained and optimized **machine learning models** for object detection, tracking, and feature extraction on **high-altitude UAV imagery and video data**. Built and managed a dataset of **15,000+ annotated images** using **Roboflow**
- Contributed to **UAV-based agricultural solutions** under the RSSA (Region-Specific Smart Agro-Technologies for Soil and Plant Health) mission by applying **computer vision and image processing techniques** for crop monitoring, soil health assessment, and feature extraction in precision agriculture workflows.

GAPP Trainee (Development and Engineering) - Bharat Electronics Limited (BEL), Bangalore 08/2025 - 10/2025

- Assisted in **application development and UI design**, following SDLC practices, contributing to timely delivery of project modules. Contributed in a **React-based application development**, utilizing Component Life Cycle ,Context API and Redux methodologies Collaborated with cross-functional teams to improve **application usability and performance**

Summer Intern - Hindustan Aeronautics Limited (HAL), Bangalore 05/2024 - 07/2024

- Involved in Development of **JavaFX-based user interfaces** for aviation systems, improving operator interaction efficiency For LCH. Built backend services using **Java and Spring Boot**, and developed **REST APIs** for system integration.

PROJECTS

Leveraging D-Wave Quantum Annealing for Optimization Solutions Github

- Investigated the use of D-Wave quantum annealing to optimize computationally intensive ML tasks such as feature selection, and model training. Conducted experiments integrating classical ML algorithms like Clustering algorithms, SVM algo with quantum annealing approaches, demonstrating potential improvements in resource utilization and performance.

Personal Portfolio Website (React.js, Tailwind CSS, JavaScript, Framer Motion, Vite, GitHub Pages) Website

- Designed and developed a modern, responsive personal portfolio website using React.js and Tailwind CSS.
- Implemented component-based architecture, reusable UI components, and animated interactions using Framer Motion to improve user engagement and visual clarity. Deployed and version-controlled the application using GitHub Pages.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C
AI & ML: Machine Learning, Deep Learning, Neural Networks, Computer Vision, OpenCV, TensorFlow, Keras, PyTorch
Core Concepts: Object-Oriented Programming (OOP), Design Patterns, Data Structures, System Design
Web Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, MySQL, node.js, git, CI/CD Pipelines
Frameworks & Technologies: Spring, Spring Boot, Hibernate, REST APIs, Microservices Architecture
Software Development Practices: SDLC, Agile Methodology, Unit Testing, Debugging, Documentation
Professional Skills: Problem-Solving, Requirement Analysis, Team Collaboration, Adaptability

ACHIEVEMENTS

- National Level INSPIRE-MANAK 2019 finalist at IIT Delhi, recognized for innovative scientific potential.
- Secured 1st place in Mandal and District-level Mathematics Talent Competitions (TMF).
- Recognized for fast learning and effective teamwork in technical and cross-functional environments.
